

Internships and working students

At Cloudflight we love our interns and working students, and they sure love us too - 93% say that time with us was absolutely worth it.

You can expect to learn a lot. From your first day, you will be working on real world projects together in a team of expert developers and other professionals. We will listen to your ideas and if you feel stuck, your coach is always there to help you.

Part-time & first jobs

You will find it really easy to combine studying at university and working at Cloudflight. We offer remote options, flexible working times and varied number of working hours per week.

Cloudflight Coding Contest

Do you have the best code? We host the largest on-site coding contest in Europe with as many as 8000 participants every year. Test your skills against the very best - on your own or in a team - and win some prizes!

cloudflight

make a digital difference

Do you like challenges?

Let's talk. 😊

This is Cloudflight

We are makers, digital creators, innovators.

Through customized software development, cloud native, Artificial Intelligence solutions and eCommerce we fully support our customers on their journey to digital transformation. It means that very often we solve problems that have never been solved before.

But basically, we work on a lot of cool stuff.

We are looking for

Software Engineers

Python Developers

Data Scientists

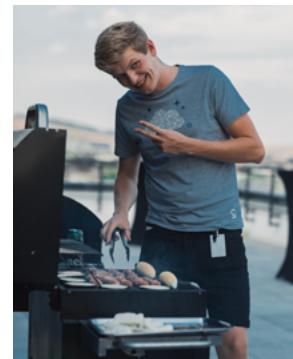

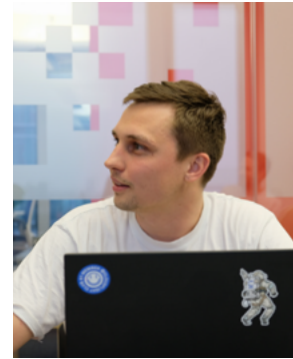

Frontend Developers

UI / UX Designers

Interns and Working Students

You will have fun

Go skiing, karting or mountain climbing, try rapping, play board games or online games, have a breakfast together, grab a beer after work.

The options are limitless, and it is totally up to you to join all, some or no activities at all. Or even host your own ideas!

Your work will matter

You will always be considered as a full member of a team - no matter if you are an intern, part-timer or full-timer.

From the start, you can expect to be included in team projects, where you can add value with your particular skills.

You will learn a lot

From company trainings, individual development budget, expert seminars organized by colleagues, to working alongside the best in their fields, you will always have an opportunity to grow.
